

## TRUCK TUNES 3 LYRICS

### 1. BUCKET TRUCK

Lifting up up up in a b-b-bucket truck  
Climbing high high high in the sky-y  
When it's tough tough tough and a ladder's not enough  
You need a b-b-b-bucket  
A bucket on a truck

Need to trim your trees?  
He makes it such a breeze  
Fixing lights and wires  
He climbs high high higher

Hanging cable too?  
Well he is able to  
Strong like a table too  
And just as stable too

But so that you don't fall  
A harness is a good call

When on a bucket truck  
Aerial bucket truck  
Oh he's a bucket truck  
Climb in a bucket truck

Lifting up up up in a b-b-bucket truck  
Climbing high high high in the sky-y  
When it's tough tough tough and a ladder's not enough  
You need a b-b-b-bucket  
A bucket on a truck

He's got some other names  
Some call them Bucket Cranes  
Or why not Cherry Picker?  
Lifting workers quicker

Need to be elevated?  
Your lift accelerated?  
He's got it regulated  
Don't underestimate it

His hydraulics go  
Controlled above and below

Cause he's a bucket truck

Aerial bucket truck  
Yeah he's a bucket truck  
Or some say basket truck

And it's important to be smart  
Thinking safety from the start  
Oh, especially when working with wires  
(Beware the w-w-wires!)  
So you put on rubber gloves  
While you work high up above  
Yeah, cause that's what electricity requires!

Be careful up there!

When lifting up up up in a b-b-bucket truck  
Climbing high high high in the sky-y  
When it's tough tough tough and a ladder's not enough  
You need a b-b-b-bucket  
A bucket on a truck  
A bucket on a truck

Oh lifting up up up in a b-b-bucket truck  
Climbing high high high in the sky-y  
When it's tough tough tough and a ladder's not enough  
You need a b-b-b-bucket  
A bucket on a truck  
A bucket on a truck

## **2. LOGGING TRUCK**

A Logging Truck does  
Just one thing  
He's a special Tractor Trailer  
with a specialty  
Now what exactly  
does all that mean?  
He concentrates on  
Hauling trees

That's right, this truck he's  
Made just for carrying trees  
One tough, rugged Big Rig  
Pulls logs like they were little twigs

And he waits for his trailer  
To be loaded down with trees  
While the loader with his grapple

Loads up everything he sees

Cuz, a Logging Truck does  
Just one thing  
He's a special Tractor Trailer  
with a specialty  
Now what exactly  
does all that mean?  
He concentrates on  
Hauling trees

Then he takes the load  
Heads down the narrow road  
Toward the staging zone  
Sets the trailers all in a row

When along comes another semi ready to go  
And he leaves behind a trailer  
That's been emptied of its load

Then he gets in line and backs right up  
And he takes the trailer full of trees  
And hooks it up

Cuz, a Logging Truck does  
Just one thing  
He's a special Tractor Trailer  
with a specialty  
Now what exactly  
does all that mean?  
He concentrates on  
Hauling trees

Secure he makes the logs  
Makes sure they don't fall off  
Ratchets the straps down tight  
He's gotta do this job right

Off he goes with the logs  
Now he's headed on his way  
Not the first or the last  
Of the trips he'll make today

He won't rest, he won't stop  
He won't call it quits until  
He arrives back home  
At the sawmill

Cuz, a Logging Truck does  
Just one thing  
He's a special Tractor Trailer  
with a specialty  
Now what exactly  
does all that mean?  
He concentrates on  
Hauling trees

Cuz, a Logging Truck does  
Just one thing  
He's a special Tractor Trailer  
with a specialty  
Now what exactly  
does all that mean?  
He concentrates on  
Hauling trees

### **3. BUS**

Don't have a car?  
No need to fuss  
Can't drive a truck?  
Just take a bus

No train nearby?  
Come ride with us  
Don't want to fly?  
Hop on a bus

Let's say you got to get to school  
Wouldn't riding with your friends be cool?  
A School Bus picks you up first thing  
Gets you to class before the school bell rings

When the bus picks you up or drops you off  
She goes and puts out a sign so traffic stops  
Her flashing lights alert drivers to "Hey, watch out!"  
Because the kids' safety is paramount  
I say the kids' safety is paramount

Don't have a car?  
No need to fuss  
Can't drive a truck?  
Just take a bus

No train nearby?  
Come ride with us  
Don't want to fly?  
Hop on a bus

A city bus can take you anywhere  
You step right in and you pay your fare  
And you could take your bike along  
Right in front of the bus is where it belongs

These buses are so strong, so very strong  
See how this bus is two cars – one, two – two cars long?  
Some are powered by fuels like gas, and see  
How this bus get its strength from electricity  
It gets its strength from electricity

Don't have a car?  
No need to fuss  
Can't drive a truck?  
Just take a bus

No train nearby?  
Come ride with us  
Don't want to fly?  
Hop on a bus

Well a passenger bus makes longer trips  
Down highways and freeways you can see them rip  
Takes you far away to other towns  
She's the perfect truck to get you around

And lookee here, lookee here, this one's designed  
With all the sight-seeing tourists well in mind  
Some have two levels where you can sit  
They call these double-deckers  
They call them double-deckers  
Yeah, they're called double-deckers and they're legit

Don't have a car?  
No need to fuss  
Can't drive a truck?  
Just take a bus

No train nearby?  
Come ride with us  
Don't want to fly?  
Hop on a bus

Don't have a car?  
No need to fuss  
Can't drive a truck?  
Just take a bus

No train nearby?  
Come ride with us  
Don't want to fly?  
Hop on a bus

#### **4. WATER TRUCK**

When there's dust on the job  
When there's dirt at the site  
It's a Water Truck's job  
To keep dust minimized

Dirt is his nemesis  
Dust is his foe  
His job is to keep them both  
Under control

Water cannon in front  
Spray heads in back  
Uses them all in  
His water attack

'Cause when there's dust on the job  
When there's dirt at the site  
It's a Water Truck's job  
To keep dust minimized

So spray, spray, spray down the road  
Oh and spray, spray, spray down the site

This truck holds 5000  
Gallons when full  
That's almost enough to  
Fill a small swimming pool

Though that's a lot  
Of capacity  
While he works, he refills his  
Tank frequently

'Cause when there's dust on the job  
When there's dirt at the site  
It's a Water Truck's job  
To keep dust minimized

So spray, spray, spray down the road  
Oh and spray, spray, spray down the site

Some call them Water Wagons and  
Some say Water Pulls  
Regardless of the name, they've got  
Lots and lots of tools

For doing their job well  
There's just no doubt  
Like this awesome water pump that helps  
Spray water out

When there's dust on the job  
When there's dirt at the site

Oh when there's dust on the job  
When there's dirt at the site  
It's a Water Truck's job  
To keep dust minimized

So spray, spray, spray down the road  
Oh and spray, spray, spray down the site

Yeah, we'll spray, spray, spray down the road  
Oh and spray, spray, spray down the site

## **5. CAR CARRIER**

May take all day  
Might drive all night  
Gotta get those cars  
To their destination alright

Gotta drive with care  
Can't drive too fast  
And secure each one  
With chains and ratchets and with straps

If you need to move your car  
And you just don't want to drive  
There's a truck you want to call  
If driving cross the country

Seems a great big barrier  
The answer's easy  
Use a Car Carrier  
If the car's your baby  
And there's nothing scarier  
Than letting go  
Go on and he'll take care of her  
No need to worry  
He's a Car Carrier

The upper deck  
Is lowered now  
Every car is placed  
And then it's tied securely right down

The level on top  
Now slowly lifts  
Hydraulically  
So the others all can fit

If you need to move your car  
And you just don't want to drive  
There's a truck you want to call  
If driving cross the country  
Seems a great big barrier  
The answer's easy  
Use a Car Carrier  
If the car's your baby  
And there's nothing scarier  
Than letting go  
Go on and he'll take care of her  
No need to worry  
He's a Car Carrier

Just how many  
Cars can it hold?  
Can you count them  
All the cars new and old

Could it be nine?  
No, count again  
It's smart design  
Means it actually fits ten

Cause if driving cross the country  
Seems a great big barrier  
The answer's easy

Use a Car Carrier  
If the car's your baby  
And there's nothing scarier  
Than letting go  
Go on and he'll take care of her  
No need to worry  
He's a Car Carrier

It may look crowded  
But the more the merrier  
Just keep on loading  
He's a Car Carrier  
If the car's your baby  
And there's nothing scarier  
Than letting go  
Go on and he'll take care of her  
No need to worry  
He's a Car Carrier  
No need to worry  
He's a Car Carrier

## **6. FOOD TRUCK**

In some cities, in some towns  
When these trucks all gather around  
You can find any food you want  
At these mobile restaurants

And some trucks like to keep  
The same stops every week  
While others like to mix it up  
Today they might be here  
Tomorrow they'll be there  
To find 'em, you gotta look 'em up

Like a kitchen on wheels  
Serving snacks, serving meals  
For every kind of mood  
A truck for every food  
Get yourself a crunchy waffle  
Or try out the falafel  
He's a Food Truck, you know?  
And he's always on the go

Equipped with ovens and big grills  
Stovetops made of shiny steel

These trucks come all prepared  
To cook up good food anywhere

It might occur to ask  
Do they cook while driving fast?  
The answer is a definite “no”  
While they drive the cook’s on pause  
Cuz they’d be breaking laws  
If they kept cooking on the go  
(That would be super dangerous.)

Like a kitchen on wheels  
Serving snacks, serving meals  
For every kind of mood  
A truck for every food  
Grab a gooey quesadilla  
You’ll love the sopapilla  
He’s a Food Truck, you know?  
And he’s always on the go  
He’s always on the go

It’s true, these trucks have become  
So, ooh, popular and some  
Have even been featured on TV  
But making great food isn’t easy

So, you want to keep in mind  
Some trucks have real long lines  
And you just might have to wait a bit  
So while waiting for your food  
Be patient, don’t be rude  
Just remember it’s your favorite

Umm, that looks delicious

Like a kitchen on wheels  
Serving snacks, serving meals  
For every kind of mood  
A truck for every food  
Score some spicy Jambalaya  
Or oh-so-fresh papaya  
He’s a Food Truck, you know?  
And he’s always on the go  
He’s always on the go  
He’s always on the go  
He’s always on the go

Like a kitchen on wheels  
Serving snacks, serving meals  
For every kind of mood  
A truck for every food  
Munch a bunch of crunchy nachos  
A taste of tasty tacos  
He's a Food Truck, you know?  
And he's always on the go

## **7. BEACH CLEANER**

When you're cleaning the beach  
He's always happy to help  
Moving litter or junk  
And a whole lot of kelp

He cleans the beach  
He cleans the beach, oh yeah  
He works as fast as he can  
So you can play in the sand  
He cleans the beach

He goes out in the morning  
The beach almost empty  
Works the controls to get  
The digger depth set

He may move 'round pretty slow  
But he's working hard, you know  
The conveyor scoops sand  
So it can be fully screened  
The debris sifted out  
By this awesome machine

He cleans the beach  
He cleans the beach, oh yeah  
He works as fast as he can  
So you can play in the sand  
He cleans the beach

You might be surprised by  
By what he can find  
As he steadily moves up  
And down the shoreline

Oh there's wrappers and bags  
Oh and all kinds of trash  
But he also gets jewelry  
Or the phone you can't find  
He may dig up some cash  
Or someone's ring left behind

He cleans the beach  
He cleans the beach, oh yeah  
He works as fast as he can  
So you can play in the sand  
He cleans the beach

He has just three wheels  
So his turns are real tight  
And with those three wheels  
He cleans fire pits right

When his hopper's all full  
He can lift it up high  
And then he dumps all that junk  
In a container nearby

Then he goes cleaning  
He's back at it again  
He's always cleaning  
Makes the beach spic and span

'Cause when you're cleaning the beach  
He's always happy to help  
Moving litter or junk  
And a whole lot of kelp

He cleans the beach  
He cleans the beach, oh yeah  
He works as fast as he can  
So you can play in the sand  
He cleans the beach  
He cleans, he cleans the beach  
He cleans, he cleans the beach  
He cleans, he cleans the beach  
He works as fast as he can  
So you can play in the sand  
He cleans the beach  
He cleans, he cleans the beach

## **8. AMBULANCE**

The ambulance is racing  
She's speeding to the scene  
Her sirens blare, her lights go flash  
And this is what they mean:

Watch out! An ambulance is coming  
Watch out! An ambulance is coming

When someone is in trouble  
They dial 9-1-1  
She gets the call, and moves along,  
Cause now she's on the run

She's loaded up with equipment  
To help somebody out  
She's got the stuff to fix you up,  
She knows the fastest route!

Move, move outta her way  
So she can get there fast  
It's an emergency  
And she has gotta get past

Watch out! An ambulance is coming  
Watch out! An ambulance is coming

The person she is helping  
Is loaded up in back  
The doors get closed and off they go  
To the hospital, just like that

If someone's in a position  
With an urgent condition  
Where there's not a physician  
She can do great things

No, she is not a magician  
But helping people's her mission  
She has got an Emergency  
Medical Technician

Move, move outta her way  
So she can get there fast  
It's an emergency  
And she has gotta get past

Move, move outta her way  
So she can get there fast  
It's an emergency  
And she has gotta get past

Watch out! An ambulance is coming  
Watch out! An ambulance is coming  
Watch out! An ambulance is coming  
Watch out! An ambulance is coming

## **9. SNOW PLOW**

Snow Plow  
Snow Plow

When it comes to snow removal  
Snow Plow  
Sure to meet with your approval  
Snow Plow

He lowers his blade down to the ground  
To shovel away the snow that's falling down down down

Snow Plow

To give drivers better traction  
Snow Plow  
He knows just the proper action  
Snow Plow

Sand and cinder he lays down on the ground  
Making driving more safe when snow is falling down down down

Snow Plow

But snow plow how now can you see  
With all that snow and storm debris?  
He uses good technology  
To show him where the lanes should be

If the snow falls really heavy  
Snow Plow  
Might see his buddies getting ready  
Snow Plow

Dozers and Loaders and Graders come round  
And Excavators while snow is falling down down down

Snow Plow

But snow plow how now can you go  
With mounds of snow piled high and low?  
His friend Snow Blower blows the snow  
And helps the Snow Plow clear the road

A blizzard got you in a pickle?  
Snow Plow  
You need this Winter Storm Vehicle  
Snow Plow

Just what would we do when storms come around  
If we didn't have you when snow is falling down down down

Snow Plow  
When snow is falling down down down

Snow Plow  
When snow is falling down down down

## **10. ICE RESURFACER**

An Ice Resurfacing Machine  
Makes skating, yeah, twice as nice  
Lays it down smooth and clean  
Creates the perfect sheet of ice

He shaves the ice with  
A blade, edge razor-thin  
Augers, like big screws  
Carry ice to a bin

Wash water shoots from jets  
To clean snow and debris  
This is vacuumed and cleaned  
With help from a squeegee

An Ice Resurfacing Machine  
Makes skating, yeah, twice as nice  
Lays it down smooth and clean  
Creates the perfect sheet of ice

Recirculated  
Water sprays out hot now

A hundred forty degrees  
Then smoothed with a towel

The hot water melts  
The ice below, making  
It strong, smooth when re-froz-  
-En better for skating

An Ice Resurfacing Machine  
Makes skating, yeah, twice as nice  
Lays it down smooth and clean  
Creates the perfect sheet of ice

This job would take hours  
And several hard workers  
Before Frank Zamboni  
Invented the Resurfacer

How many snow cones  
Do you think you could make  
Using the shaved ice he  
Collects in his snow tank

(This one right here shaves enough ice in one resurfacing to make more than 3600 snow cones!)

An Ice Resurfacing Machine  
Makes skating, yeah, twice as nice  
Lays it down smooth and clean  
Creates the perfect sheet of ice

## **11. I LOVE TRUCKS**

Guess what makes me so happy?  
I love trucks and big machines  
Guess what makes me so happy?  
I love trucks and big machines

Cuz they're so big  
And incredibly strong  
Cuz they never get tired  
And work all day long

Cuz they have cool parts  
Like their hoppers and booms  
Cuz some move real slow  
And some seriously zoom

Can't help put a smile on my face  
Watch them moving and working all day

Guess what makes me so happy?  
I love trucks and big machines  
Guess what makes me so happy?  
I love trucks and big machines

Cuz they scrape and dig  
And they rattle the ground  
Cuz they grumble and roar  
And make all kinds of sounds

Cuz they can reach low  
Or lift high in the sky  
Cuz they clean up a mess  
In a single drive-by

Cuz they're not afraid  
To go from coast-to-coast  
Cuz pulling and hauling  
Is what they like the most

Can't help put a smile on my face  
Watch them moving and working all day

Cuz they dig and they smash and they clean and they haul  
Cuz they build and tear down, cuz they're tough and they're tall  
They dig and they smash and they clean and they haul  
They build and tear down, and they're tough and they're tall

Guess what makes me so happy?  
I love trucks and big machines  
Guess what makes me so happy?  
I love trucks and big machines  
Guess what makes me so happy?  
I love trucks and big machines
