

## Truck Tunes 5 Lyrics

### 1. AIRCRAFT DEICER

B-R-R-R, B-R-R-R

Deicer,

It's so cold!

At 32 degrees

And below

Water freezes

You know

Turns into ice

And to snow

B-R-R-R, B-R-R-R

Deicer!

The weather for flying could be nicer  
But thanks to the Aircraft Deicer  
Planes can take off safely and ice-free  
No matter how freezing cold it might be  
So fly on airplane, fly with me!  
Oh-oh-oh!

B-R-R-R, B-R-R-R

Deicer,

It's so cold!

At 32 degrees

And below

Water freezes

You know

Turns into ice

And to snow

B-R-R-R, B-R-R-R

Deicer!

Before spraying the planes all down  
She fills up with a special compound  
Water and Glycol when mixed together  
Just won't freeze in the coldest of weather

She does her job in two stages, you see  
First, she removes all the ice thoroughly  
Then anti-icing is applied to prevent  
Any ice from forming on the plane once again

B-R-R-R, B-R-R-R

Deicer!

B-R-R-R, B-R-R-R  
Deicer,  
It's so cold!  
At 32 degrees  
And below  
Water freezes  
You know  
Turns into ice  
And to snow  
B-R-R-R, B-R-R-R  
Deicer!

B-R-R-R, B-R-R-R  
Deicer,  
It's so cold!  
At 32 degrees  
And below  
Water freezes  
You know  
Turns into ice  
And to snow  
B-R-R-R, B-R-R-R  
Deicer!

## **2. OFF-ROAD RACING TRUCK**

It's the off-road, off-road racing truck  
Can you believe his amazing luck?  
He's gotta keep tough, Gotta stay tuned up  
Who's in the lead now?

Speeding through turns, he can't over-rotate  
Hitting his jumps clean, not getting sideways  
No, no time to be afraid, Can't fear the contact  
He only knows one mode:  
Attack! Attack! Attack!  
Who's in the lead now? Who's in the lead?

It's the off-road, off-road racing truck  
Can you believe his amazing luck?  
He's gotta keep tough, Gotta stay tuned up  
And when things go wrong, He's gotta stay strong  
Off-road, off-road racing truck  
And if he wins he might make a buck

He's gotta keep tough, Gotta stay tuned up  
Who's in the lead now?

She's rough and strong, she's as tough as can be  
But if she wants first, then safety comes first,  
Oh, when there's a crash on the track  
A yellow flag gives warning, Wait for the green flag  
Then Go! Go! Go!  
Who's in the lead now? Who's in the lead?

It's the off-road, off-road racing truck  
Can you believe her amazing luck?  
She's gotta keep tough, Gotta stay tuned up  
And when things go wrong, She's gotta stay strong  
Off-road, off-road racing truck  
And if she wins she might make a buck  
She's gotta keep tough, Gotta stay tuned up  
Who's in the lead now?  
Who's in the lead?

They're strong! They're fast! They're stoked!  
Racing is life, oh!  
So if you backfire  
Race on!  
And if you lose a tire  
Race on!  
Race on!

Cause they're off-road, off-road racing trucks  
Can you believe their amazing luck?  
They gotta keep tough, Gotta stay tuned up  
And when things go wrong, They gotta stay strong  
Off-road, off-road racing truck  
And if they win they might make a buck  
They gotta keep tough, Gotta stay tuned up  
Who's in the lead now?

### 3. ROCK CRAWLER

When you're rock crawlin'  
Don't wanna be fallin'  
'Cause when you're scalin'  
It's so dangerous failin'

Rock Crawler  
Rock Crawler

With all four wheels steerin'  
There's no need to be fearin'  
With tires so knobby  
Rock grippin's more than a hobby

Rock Crawler  
Rock Crawler  
Rock Crawler  
Rock Crawler

With awesome torque she can carefully climb  
Just about any rock she can find  
Suspension gives her the clearance she needs  
Her differential transfers just the right speed  
Body armor protects the driver inside  
A rollcage comes in handy if she starts to slide

Rock Crawler  
Rock Crawler

Those rocks, they are callin'  
"Come do some rock crawlin'"  
Those stones keep insisting  
Oh, there's no use in resisting

Rock Crawler  
Rock Crawler  
Rock Crawler  
Rock Crawler

#### **4. OFF-ROAD RACING KART**

Look at him go! He's the Junior 1 Kart  
He races with courage and steers with his heart  
And if he takes a tumble you will see  
He gets right back on track safely

Though he may not be in Pro Class yet  
Still at times he drives like a seasoned vet  
And he's racing every chance that he gets

'Cause he loves to ride!

She gives it a go, oh right out from the start  
She's the next level up, she's a Junior 2 Kart  
And as she rides, her bravery never fails  
Just watch her go like she's on rails

Though she may not be in Pro Class yet  
Still at times she drives like a seasoned vet  
And she's racing every chance that she gets

'Cause she loves to ride!

When the Modified Kart goes on a tear  
They can get what they call 'serious air'  
With up to 450 cc's  
They speed through turns and jumps with ease

And what they lack in sheer horsepower  
They make up in thrills per hour

Though they may not be in Pro Class yet  
Still at times they drive like a seasoned vet  
Oh, these Karts may not be quite as big as the Pros  
But the stands full of fans of racing know  
That these Karts really know how to go!

'Cause they love to ride!

## 5. SIDEWALK TRACTOR

Snow Plow  
Debris Blower  
Stump Grinder  
Boom Flail Mower

He's a master of functionality  
With a wide array of abilities  
He works all year long vigorously  
For the Municipality

They call him Sidewalk Tractor  
Bet you can guess just why  
He's tough enough to work anywhere  
But small enough to squeeze by

The key to his success  
Are all the attachments he can use  
And depending on the job he has  
He knows which one to choose

He's a master of functionality  
With a wide array of abilities  
He works all year long vigorously  
For the Municipality

In Winter, when the sidewalks  
Get all piled-up with snow  
He can utilize his Snow Blower  
Or get his Plow to go

And in the Summer when the weeds  
Just grow and grow and grow  
He attaches his Boom Flail  
Now that can really mow!

He's a master of functionality  
With a wide array of abilities  
He works all year long vigorously  
For the Municipality

In the Spring with all the blossoms  
He can clean with his Street Sweep  
Or he can load like a Front End Loader  
Scooping up dirt and debris

And in the Fall he's useful  
For gathering leaves up too  
And there are more attachments  
He's got so much he can do

He's a master of functionality  
With a wide array of abilities  
He works all year long vigorously  
For the Municipality

Leaf Loader  
Snow Blower  
Angle Sweeper  
Cold Planer  
Snow Plow  
Debris Blower  
Stump Grinder  
Boom Flail Mower

## **6. MOBILE DRILLING RIG**

Drill it! Rig it!  
Drill it! Rig it!  
Then move it around

Water in the desert  
Can be difficult to find  
He has to work so very hard  
His bit will spin and hammer in time

And if the source is  
A thousand feet below the well  
He may load up fifty  
Drill rods in his drilling carousel

'Cause he's a Mobile Drilling Rig  
Guess how deep down he can dig?  
He bores deep into the ground  
Several hundred meters down  
If you can dig it  
Then he can dig it  
If you can dig it  
Then move it around

The main parts of the Derrick  
Are the Boom and the Mast

They supply the drilling skills  
That cannot be copied or surpassed

The Mast with its pulleys  
Is the tallest part of the Rig  
And this truck has a Boom  
That sports a swinging, swinging jib

Oh, he's a Mobile Drilling Rig  
Guess how deep down he can dig?  
He bores deep into the ground  
Several hundred meters down  
If you can dig it  
Then he can dig it  
If you can dig it  
Then move it around

Air and water remove  
The cuttings the drill creates  
And they help to cool the heat  
That all the boring generates

He gets assistance  
From some helpful machines  
A compressor gives compressed air  
And a pump gives all the water he needs

Some rigs have wheels  
And they can transport themselves  
Other rigs are tracked  
And so they need a healthy Big Rig to help

Though the tracked rigs may not  
Drive on the open road  
At work they're very nimble  
As these moves will clearly show

Oh, he's a Mobile Drilling Rig  
Guess how deep down he can dig?  
He bores deep into the ground  
Several hundred meters down  
If you can dig it  
Then he can dig it  
If you can dig it  
Then move it around

## 7. ICE CREAM TRUCK

If you're like me then  
When you hear him play that tune  
You know exactly what it means  
On a hot afternoon

You keep a look out  
Don't wanna miss out  
I hope you saved some room  
You hear his song  
And hurry quickly, join the queue  
You make your choice and then you take your money pay him too

And then you chill out  
Try not to spill out  
I hope you saved some room  
I hope you saved some room for

Ice cream  
Cool me down, cool me down with  
Ice cream  
Turn my frown upside down with  
Ice cream  
All around through the town  
The Ice Cream Truck goes round and round

You're at the park and suddenly you  
Hear your favorite sound  
It's about the only thing that'll make you leave the playground  
He's in the neighborhood  
His treats are frozen good

I hope he'll come around  
He's fully stocked with treats and goodies oh so cold  
He loads 'em up, and settles in, and heads out on the road  
Will it be Sunday?  
Or maybe Monday?  
I hope he'll come around  
I hope he'll come around with

Ice cream  
Cool me down, cool me down with  
Ice cream  
Turn my frown upside down with  
Ice cream  
All around through the town  
The Ice Cream Truck goes round and  
Cools the freezer overnight  
Gotta get the temperature just right  
To keep 'em frozen 'ight

The only problem might just be you have to choose  
Do you take the cone, the ice cream sandwich? Can you even lose?  
Oh what an obstacle  
Do you pick the popsicle?

How are you gonna choose  
How are you gonna choose your

Ice cream  
Cool me down, cool me down with  
Ice cream  
Turn my frown upside down with  
Ice cream  
All around through the town  
The Ice Cream Truck goes round and round

## **8. CRAWLER TRANSPORTER**

Crawler  
Crawler Transporter  
Crawler  
Oh, oh, oh  
Crawler Transporter

Traveling when loaded  
Just one mile per hour  
Their job's not about speed  
But stability and power

They carried the rockets  
That put man on the moon  
And every Space Shuttle  
Rode these awesome trucks, too

They've got a singular job  
Just one thing to do  
The Crawler Transporters  
Crawler 1, Crawler 2  
They carry Space Vehicles  
To the launch site  
These two behemoths  
Work with all of their might

They operate safely  
With a 30-person crew  
Each driver sits in cabs  
And each crawler has two

Their steering wheels  
May seem terribly small  
But their electronics  
Are what manage their crawl

They've got a singular job  
Just one thing to do  
The Crawler Transporters  
Crawler 1, Crawler 2  
They carry Space Vehicles  
To the launch site  
These two behemoths  
Work with all of their might

Each transport weighs  
More than 6 million pounds  
They carry twice as much  
Doesn't that just astound?

Each has two engines  
And two generators  
They use a leveling system  
And they're guided by lasers

Powerfully built  
Expertly they're maintained  
They've been out hard at work  
For more than five decades

At the National NASA Kennedy  
Space Center  
May they keep on working  
Forever and ever

They've got a singular job  
Just one thing to do  
The Crawler Transporters  
Crawler 1, Crawler 2  
They carry Space Vehicles  
To the launch site  
These two behemoths  
Work with all of their might

Oh, they're the Crawler  
Crawler Transporter  
Crawler 1, Crawler 2  
Crawler  
Oh, oh, oh  
Crawler Transporter

## **9. HI-RAIL BACKHOE**

Graded crossings are nice  
But they're not required  
He can enter the tracks  
Directly with his tires

He lines up and drops  
His gears into place  
Locks his front tires up  
And out of the way

Oh, he's the multi-talented  
Hi-Rail Backhoe  
He can ride the rails  
Or drive on the road  
Just this one  
Machine can do  
All of the work  
Of an entire crew

His suspension functions  
Quite independently  
Front and back, oh yes  
Operate separately

To stay safe and secure  
Now at the work site  
His outriggers extend  
They keep him stabilized

Oh, he's the multi-talented  
Hi-Rail Backhoe  
He can ride the rails  
Or drive on the road  
Just this one  
Machine can do  
All of the work  
Of an entire crew

His tilt attachment coupler  
Rotates three hundred sixty degrees  
So he can perform track maintenance  
Oh yeah, with ease

It's amazing just how  
Expertly he's built  
With the tools that attach  
To his Rototilt

Undercutter Tool  
Tie Talon, too  
And the Motor Tamper  
Just to name a few

Oh, he's the multi-talented  
Hi-Rail Backhoe  
He can ride the rails  
Or drive on the road  
Just this one  
Machine can do  
All of the work  
Of an entire crew  
Yes, just this one  
Machine can do  
All of the work  
Of an entire crew

## **10. BUCKET WHEEL EXCAVATOR**

Like a metal monster  
That eats continuously  
The Bucket Wheel Excavator  
He digs so efficiently  
With nearly a hundred  
Percent availability  
He's the perfect model  
Of Reliability

He's a non-stop operator  
He's a digging dominator  
He's a Bucket Wheel Excavator  
Yeah, he's a Bucket Wheel Excavator

Some machines have booms, you know  
Well this Bucket Wheel has three  
For cutting, for discharge  
And a counterweight so heavy  
With a crawler unit  
He shows off his mobility  
And with help from his friends he moves  
His conveyor belt easily

Oh, he's a non-stop operator  
He's a digging dominator  
He's a Bucket Wheel Excavator  
Yeah, he's a Bucket Wheel Excavator

He is one of the world's largest machines  
Largest and strongest machines  
He makes other very big trucks  
Look like toys, like little playthings

'Cuz he's a non-stop....

He's a non-stop operator  
He's digging dominator  
He's a Bucket Wheel Excavator  
Yeah, he's a Bucket Wheel Excavator
